

## Badminton Club Practice Plans

- Members
  - An estimate of 10 members
- Social Distancing Measures
  - Masks will be required at all practices with individual equipment as well
  - Players will only be allowed to play singles on each court to maintain social distancing rules among individuals
  - There are enough courts where everyone can stay on a side of one court by themselves if not playing (8 courts = 16 sides which is more than the estimated number of players we have)
  - As badminton is a racquet sport, so no physical contact is needed to play and all physical contact will be prohibited during practice
  - Any individual who violates the aforementioned rules will be given two warnings
    - After two warnings, consequences such as a practice ban or other measure may be enacted depending on the severity of the warnings (i.e. standing a little too close vs. direct contact)
- Responsibilities
  - Equipment: Each player must bring their own racket and birdies that only they can use - no exceptions allowed!!!
  - Nets and Poles: Provided by the recs
  - Check-ins: A google form will be used to keep track and serve as a back-up of check-ins for each player during practice by the officer present
    - The officer responsible for check-ins will depend on an availability basis
      - i.e. Officer A is responsible for check-ins. If unable to attend practice, officer B is responsible for check-ins. If both A and B are unavailable, then officer C will be responsible for check-ins and so on.
    - All members must be on the Badminton Club's roster on the club management page. The officer responsible for check-in must mark them off on website before allowed to practice.
  - Wellness check for symptoms of covid-19 will be conducted on each of the players before allowing them to enter the courts as well
  - A google form has also been created for players to log their daily wellness and any interaction with a covid-positive individual (if there is an issue noticed, we will update them on proper quarantine procedure and will not allow them in practice)
- Social Distancing: Each member is responsible for keeping a 6 foot distance from others at all times, however, officers will also be responsible for reminding members as well with warnings
